Art Unit: 2823

Claims 1-5 and 18-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 18, it is unclear what is recited through use of "a transparency" because the type of radiation which the material allows the passage of has not been specified. Note that claim 5 requires that both films be silicon oxide. Claims 21 and 22 also independently allow the films to be silicon dioxide. As a result it is not possible to compare the scope of the claim to the teachings of the cited references.

In view of the 35 U.S.C. 112, second paragraph rejection of claims 1-5 and 18-22, there is a great deal of confusion and uncertainty as to the proper interpretation of the limitations of claims 1-5 and 18-22. As a result, the scope of claims 1-5 and 18-22 cannot be determined without considerable speculation or assumption. Therefore, claims 1-5 and 18-22 has not been rejected on the basis of prior art. See MPEP 2173.06.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
